IWA World Water Congress and Exhibition 19–24 September 2010, Montréal, Canada

The IWA World Water Congress and Exhibition is a high-profile international event attracting 4,500 water professionals and organisations from across the globe to advance their common goal of sustainable water management.

In 2010, the International Water Association (IWA) is partnering with the Canadian Water and Wastewater Association and the Canadian Association on Water Quality to hold this event in Montréal, Canada from 19–24 September.

The IWA World Water Congress and Exhibition in Montréal will allow the world's community of water professionals to meet, exchange ideas, explore the state of the art and debate the key issues underlying the science and practice of water.

Through key topics, the congress theme *Water – the lifeblood of the world* will explore the continuum between research and practice and cover all facets of the water cycle, from the science and management of drinking water, wastewater and stormwater to the conservation of global water resources.

The key topics of the IWA World Water Congress and Exhibition are:

- Science and application of water management
- Water, climate and energy
- Cities of the future
- Managing utilities and their assets
- Securing new and traditional water resources for the future
- Water, ecosystems and catchments
- Water and health
- Water and wastewater in developing countries.

Congress registrations will open on 1 April 2010. For more information please go to www.iwa2010montreal.org

Principal sponsors of the congress are ITT, Suez Environnement and Veolia Water.
